## AUSTRIA IS AGAIN ASKED TO STATE HER ATTITUDE

Emperor Of Dual Monarchy Holds Long Conference With Minister of Foreign Affairs Who Had Been Closeted With Penfield.

### LANSING URGES IMMEDIATE ACTION ON BILL GIVING PRESIDENT DRASIC POWER

Washington, February 20.—(Associated Press Dispatch)—Secretary Lansing and Assistant Attorney General Warren urged the Senate Judiciary Committee today to pass a bill authorizing the President to use the armed forces of the United States to enforce its neutrality obligations, particularly with reference to armed vessels of a belligerent interned in ports of the United States which might seek to escape.

Washington, February 20.—(Associated Press Dispatch)—The bill was introduced in fourteen separate measures suggested by the Department of Justice and was put through virtually unchanged, despite the opposition of several senators who declared its terms so stringent as to imperil American liberty of speech and the freedom of the press. The bill has not passed the House.

### PUTS DIRECT QUERY TO AUSTRIA-HUNGARY

London, February 20.—(Associated Press Cable)—Frederick C. Penfield, American Ambassador at Vienna, is said by Reuter's Amsterdam correspondent to have delivered to the Austro-Hungarian Foreign Minister a request for a clear and final definition of Austria-Hungary's attitude regarding submarine warfare.

London, February 20.—(Associated Press Cable)—The Amsterdam correspondent says that, according to a telegram from Vienna, Mr. Penfield handed a memoir today to the Foreign Minister requesting clear and final information as to what standpoint the Austro-Hungarian Government has assumed regarding submarine warfare, and whether the assurances given on occasion of the Ancona and Persia incidents are to be regarded as changed or withdrawn.

The Foreign Minister, the dispatch says, will submit the memorandum for thorough examination and then make a reply.

### AUSTRIAN RULER HOLDS LONG CONFERENCE

London, February 20.—(Associated Press Cable)—A Central News dispatch from Zurich today says:

"The Austrian Emperor has given a long audience to Count Czernin, the Minister of Foreign Affairs, who previously had a conference with Frederick Penfield, the American Ambassador."

**REBELS WILL BE HELD FOR U-53 IS THE GUILTY ONE**

By Associated Press Dispatch.

New York, February 20.—It was the U-53, the German submarine which suddenly appeared at Newport last fall and later sank several ships off Nantucket, that sank the Housatonic, the first American ship to be sent to the bottom after the beginning of Germany's new submarine warfare. It was made known here today by Captain Thomas A. Ensor, the Housatonic's commander, who arrived on the Cunard steamship Orduna.

Captain Ensor brought with him as proof of his assertion a life preserver marked U-53, which he said he received from one of the submarine's crew. Many of them sent messages of

States for any molestation of foreigners or their interests.

The note was presented to the Cuban Government yesterday by American Minister Gonzales.

Pending General Pershing's arrival, Colonel M. H. Barnum, General Funston's chief-of-staff, will be in charge of the Southern Department, and the movement of National Guardsmen to their homes will not be delayed.

The heart affection which caused death first appeared, according to Colonel Ireland, in 1910, but had not been considered alarming.

Although he was quickly removed to a room in the hotel where he had collapsed and restorative measures attempted, they were of no avail.

The heart affection which caused death first appeared, according to

Colonel Ireland, in 1910, but had not been considered alarming.

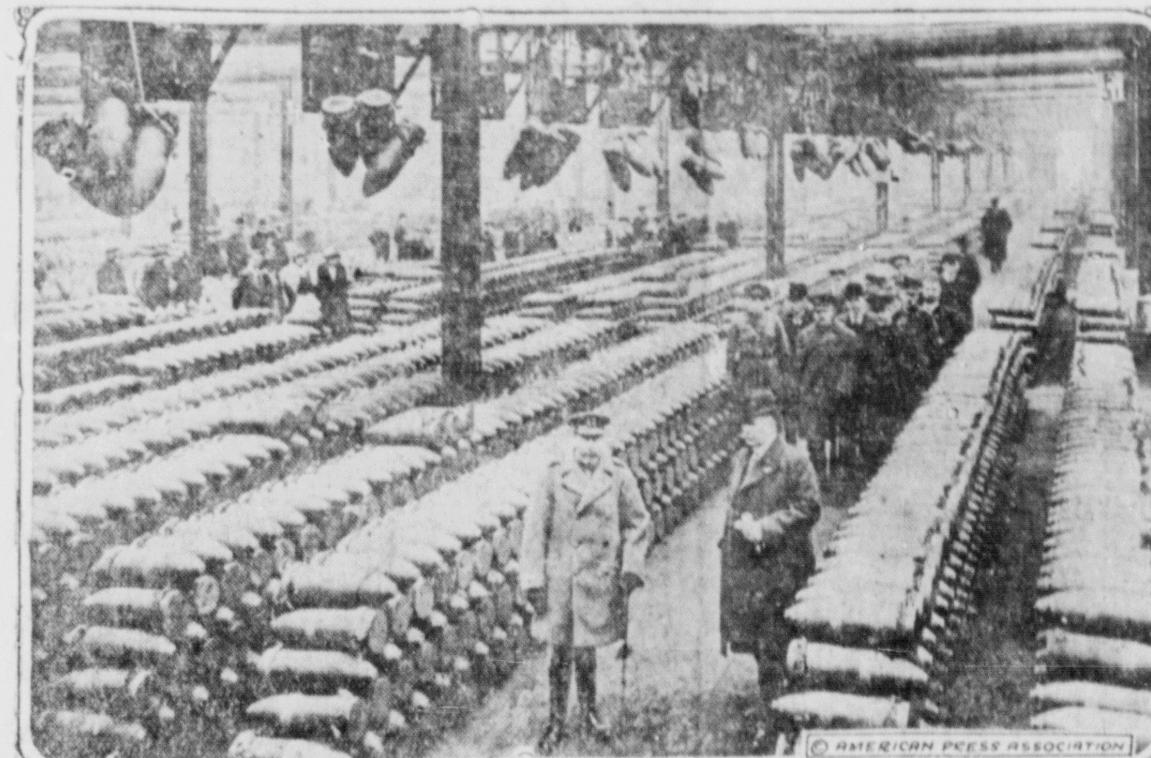

Only yesterday General Funston had completed and approved plans for the return of all guardmen.

### MANY HIGH OFFICIALS EXTEND SYMPATHY

Washington, February 20.—President Wilson and other high officials as well as army officers generally, expressed deep regret today over the sudden death of Major General Frederick Funston at San Antonio, Texas, last night.

Captain Ensor brought with him as proof of his assertion a life preserver marked U-53, which he said he received from one of the submarine's crew.

### KING GEORGE INSPECTS FACTORIES TO SEE HOW ENGLAND KEEPS UP SHELL SUPPLY

KING GEORGE VISITS AMMUNITION FACTORY

Although the British government has vetoed the proposed furnishing of naval shells to the United States by Hadfields on the ground that the British may need all the facilities for shell making they can muster, it is asserted that they have solved the

problem of supplying their own army and navy with all the shells they may need. The photograph reproduced herewith was procured from the British government and offers a striking example of how England faces the problem of making shells for her own navy in wartime. King George and

his party are seen inspecting Great Britain's largest shell manufacturing depot. The curious grapelike clumps in which shells are hanging show the manner in which the innumerable carriages run on overhead tracks and facilitate the moving of thousands of shells every day.

## AFFLICTION OF FUNSTON WAS NOT NEW

Heart Affection First Noticed in 1910—Pershing on Way to San Antonio—Funeral Arrangements Not Made.

By Associated Press Dispatch.

San Antonio, Texas, February 20.—Funeral arrangements for Major General Frederick Funston, who died suddenly here last night, had not been completed early today because of lack of definite advices from Mrs. Funston who, with her three children, is in San Francisco, and the non-arrival of Major General Pershing, who is still at El Paso.

The latter was said to be enroute here, and it was considered possible that definite announcement of plans might be made later in the day.

According to Lieutenant Colonel H. W. Ireland, General Funston's physician, the death of the General was practically instantaneous.

Although he was quickly removed to a room in the hotel where he had collapsed and restorative measures attempted, they were of no avail.

The heart affection which caused death first appeared, according to

Colonel Ireland, in 1910, but had not

been considered alarming.

Pending General Pershing's arrival, Colonel M. H. Barnum, General Funston's chief-of-staff, will be in charge of the Southern Department, and the movement of National Guardsmen to their homes will not be delayed.

Only yesterday General Funston had completed and approved plans for the return of all guardmen.

Many of them sent messages of

condolence to Mrs. Frederick Funston, now visiting in San Francisco.

It was believed that Secretary of War Baker may send a personal representative to attend the funeral.

By Associated Press Dispatch.

San Antonio, Texas, February 20.—The body of Major General Funston who died here suddenly last night, will be taken to San Francisco tonight for burial.

Short services will be held at Fort Sam Houston this afternoon, and the body will then be transferred to a Southern Pacific train for the West.

It will be accompanied by Captain Lee, aide to General Funston, and a guard of six enlisted men.

Mrs. Funston, at her home in San Francisco, requested the body be sent there for burial.

## ENTIRE AMOUNT AVAILABLE FOR NEW POSTOFFICE

\$57,000 Is Amount Included In List of Appropriations for Constructing Postoffice Building Here.

That the entire amount of money included in the original appropriation for the \$80,000 government building or postoffice in this city, is now available, is indicated in a dispatch from Washington which announces that \$57,000 has been appropriated "to carry on the construction of postoffice buildings heretofore authorized."

The first appropriation made from the fund allotted to this city was \$20,000 for the purchase of lot and other incidental expenses, and it is understood an appropriation of some \$3,000 was made for other expenses necessary in unwinding the red tape and taking care of other liberal expenses which usually accompany such work.

The final appropriation indicates that work on the building may be taken up sometime this year.

The dispatch in full says:

"The sundry civil appropriation bill which was reported to Congress yesterday makes liberal appropriations for Ohio. The bill carries an item of \$3500 to install mail-conveying machinery at the Columbus postoffice. To carry on the construction of federal buildings heretofore authorized the following appropriations are made: Akron, \$220,000; Ashland, \$40,000; Coshocton, \$94,000; Elyria, \$10,000; Fremont, \$40,000; Gallipolis, \$10,000; Kenton, \$50,000; Martin Ferry, \$70,000; Newark, \$50,000; Sandusky, \$20,000; Washington C. H., \$57,000; Wilmington, \$20,000; Cincinnati Marine Hospital, \$10,000. For care and maintenance of the Confederate burial plots at Columbus and five other cities the bill appropriates \$1250; for the Dayton Soldiers' home the bill appropriates \$573,200, divided as follows: Current expenses, \$60,000; subsistence, \$250,000; household, \$103,000; hospital, \$76,000; repairs, \$60,000; farm, \$23,000. The bill appropriates \$42,000 to establish aids to navigation at Fairport harbor and \$4500 at Huron harbor."

## INTEREST DEEPENS IN SPECIAL SERVICES

Monday night, usually a bad night in a religious campaign, proved to be just the opposite at the Christian Church, for at exactly 7:30 when the clock heralded the hour the house was filled to hear evangelist Tilcock on his subject: "Old Ropes and Rusten Rags."

SECRETARY,

Regular meeting of W. R. C. at Memorial Hall, Thursday, February 22 at 2:00 p. m. All members urged to be present.

SECRETARY,

As result of seven or eight weeks of warmth coming from the furnaces in the Tabernacle, the small branches of the large elm tree in the tabernacle are in full leaf and are attracting a great deal of attention.

While the branches enclosed by the abernacle are in leaf, the upper branches are bare, although the buds have swollen as though about to put forth leaves. It is expected the difference in temperature will result in killing the tree.

THE MEETING IS HELD UNDER THE AUSPICES OF THE CINCINNATI AUTOMOBILE CLUB.

## The Terrell's Bill

The bill introduced by Senator Terrell of Cleveland to legalize Christian Science practice in Ohio has passed the Senate.

To be more exact, the bill, if enacted into law by the General Assembly, would remove Christian Science from the ban which the present laws of Ohio place on it.

It is not necessary to become a convert to Christian Science teachings in order to appreciate the real justice which underlies the law which Senator Terrell advocates.

Christian Science is a belief to which many hundreds of thousands of conscientious citizens in the nation, thousands of them in Ohio, cling with deep conviction and absolute sincerity. That there is much good to humanity in the teachings is denied now by very few people. Christian Science, whether we, individually, accept it or not, has become established and recognized as one of the great movements and benefits of the age.

Twenty-eight states of the Union have recognized progress and lifted the ban, and Ohio should not remain behind.

Recognizing the good which the practice and the belief guarantees and mindful also that the abuses to which the high and conscientious calling are subjected are not great when compared with the abuses which have been made of teachings and professions longer recognized by the laws of organized society, the legislators of the state should not longer allow themselves to be controlled by those whose deep prejudices, mistaken for conscientious scruples, are the outcome of selfish interest.

Whether we believe in the teachings or not is not important. Others do—many of our best people. The state of Ohio should be honest with itself and in matters of morals and religious beliefs leave the people free to follow the dictates of their own conscience.

## The Lesson of the Week

This is Pay-Up Week and Pay-Up Week is a good thing. It enables everybody to get square and start even again. It is a sort of business invoice affecting every individual and every community. It has grown until it is now of national scope.

That's the primary lesson, only, of Pay-Up Week, however.

It teaches, or should teach, lessons beyond and fully as important as those.

In times to come now, since pay-up week has become a firmly established custom, we should all be mindful, during the year, that a pay-up time is coming and, mindful of that, our affairs should be so ordered that that settling time will not find us unprepared. Counting the cost of every project proposed, during the year, should be one of the wholesome outgrowths of the custom.

As a community Washington has had many proposals launched during the year just passed and Pay-Up Week coming now so soon after some of them compels realization that the time to settle up must follow the launching of every one of these movements.

Business men of the city have been called upon to contribute liberally to public movements—each one of them worthy of support—and they are feeling the strain.

Pay-Up Week should impress those who dream of these good things and launch them that the cost must be met in dollars and cents.

Pay up during Pay-Up Week—get square on all four sides is fine—but during each of the fifty-one other weeks in the year we should keep down the expense, especially that which we, in our enthusiasm, wish onto others.

## The Sun and the Flag

Patriotic Americans who have pride in this country's growth and development will experience a thrill when they read the following statement taken from the Youth's Companion:

"Great Britain is no longer the only nation that can say that the sun never sets on its territory. Since the United States acquired the Danish West Indies it can make the same boast."

Hitherto the little island of Culebra, which is virtually a part of Porto Rico, has been our most easterly point of land, and the island of Balabac in the Philippines our most westerly point. The distance between them is just a little less than 180 degrees, or half the circumference of the earth. St. Croix, in the Danish West Indies, is 38 miles farther east than Culebra—enough to bridge the gap. Just as the sun is rising on St. Croix it is setting on Balabac."

We all remember what feelings of awe and respect for the majesty of Great Britain were inspired during that happy time, "school days," when we were taught that "the sun never sets on the British possession."

Now we can teach the oncoming generations that the sun never ceases to shine on the Stars and Stripes.

A vast domain over which old glory floats—a domain under the control of a people who owe allegiance to the starry banner, where freedom and enlightened self government has displaced for all time the despotic rule of kings.

## Poetry For Today

### WHERE'S MOTHER?

Bursting in from school or play,  
This is what the children say;  
Trooping, crowding, big and small,  
On the threshold, in the hall.  
Joining in the constant cry,  
Ever as the days go by—  
"Where's Mother?"

From the weary bed of pain,  
This same question comes again,  
From the boy with sparkling eyes,  
Bearing home the earliest prize,  
From the bronzed and bearded son  
Perils past and honors won—  
"Where's Mother?"

Burdened with a lonely task,  
One day we may vainly ask  
For the comfort of her face,  
For the rest in her embrace,  
Let us love her while we may,  
Well for us that we can say,  
"Where's Mother?"

Mother, with untiring hands,  
At the post of duty stands,  
Patient, seeking not her own,  
Anxious for the good alone  
Of the children as they cry,  
Ever as the days go by—  
"Where's Mother?"

—Exchange.

## WOMAN ARRESTED ON DRUNK CHARGE

Cora Underwood was taken in tow by the police, Tuesday, after she had imbibed too freely and gone on a rampage, according to the police.

The woman was placed in the county jail to wait the time when she would be sober enough to face His Honor on a drunk and disorderly charge.

The woman is the mother of Darrel Devore, held in Springfield on a charge of holding up and robbing clerks in a shoe-store.

## IN THE OHIO LEGISLATURE

Columbus, O., February 20.—The Agricultural bill an administration measure, backed by the state grange was before the lower house of the general assembly for final passage this afternoon. As amended the bill provides for a Secy. of Agriculture to be appointed by the Governor, leaving the present Agricultural board, composed of farmers intact, to act in an advisory capacity.

The United Spanish War Veterans have asked Governor Cox to fill two vacancies on the board of trustees of the Xenia Sailors' and Soldiers' Orphans' Home by appointing from the ranks of their organization.

Col. John S. Shettler and Captain H. B. Huston left today for Fort Benjamin Harrison to officially receive the property of the First Squadron, Ohio Cavalry which will be turned over to the state with the muster out there of the troops. The state will receive all the federal property used by the Ohio troops on the Mexican border.

The Republicans in the House indicated today they will oppose the administration highway bill introduced by Rep. Bliss of Cleveland. Republicans will urge as a substitute for the Bliss bill, a bill presented by Rep. Mansfield of Jefferson county. The Bliss bill abolishes the present highway commissioner and provides for the appointment of a non-salaried commission of three to appoint a state highway engineer and act in an advisory capacity to him. Mansfield's bill provides for a non-salaried commission of five in the department but does not disturb the present state highway commissioner.

While the taxation bill, prepared by the bi-partisan committee of the two houses is expected to be reported out and passed this week as an emergency measure, chances are not so good for passage of a bill to give relief to debt-burdened municipalities. So many different bills have been introduced, designed to give relief to cities, that representatives of the municipalities have become fearful that they will get nothing out of the legislature. Rural members are opposed to any tampering with the Smith one per cent law and little relief can be afforded cities, it is said without a modification of this law.

## CORN SHOW EXCEEDS ALL SHOWS IN OHIO

Judges Busy Placing Ribbons, Delighted With the Great Displays.

**FIRST PREMIUMS ARE ANNOUNCED BY JUDGES**  
360 Entries Containing Approximately 5000 Ears—Domestic Science and Arts Display Heavy. Formally Opens Tomorrow.

The greatest corn show held in Ohio since the National Show was held in Columbus a few years ago, is now under way in the tabernacle building, and 360 entries containing a total of approximately 5,000 ears, including some of the best corn ever seen in this city, form the attraction in the corn line, while numerous exhibits of wheat and other grain complete the big grain show.

Following are awards announced up to three o'clock p. m.:

### OPEN TO THE WORLD

Class A, 10 Ears Yellow:—1st, Wilbur Morris, Urbana, Ohio; 2nd, E. C. Lawrence & Son, Coshocton, Ohio; 16; Class F, 31; Class G, 23; Class H, 34; Class I, 22; Class J, 9; Class K, 5; Class L, 13.

Early Tuesday morning the corn judges, Prof. R. G. Wiggins and W. F. Bruce, two of the best judges in the state of Ohio, took up their work and found their task a big one, particularly in the open to all classes where corn was exhibited from several parts of the state, Indiana and Missouri.

Corn growers from all over the county and other parts of the state watched the work of judging with a great deal of interest.

But the real busy place in the tabernacle nearly all day Tuesday was the Domestic Science Department, where scores of entries were made. Also in the Domestic Arts Department the entries were surprisingly large, and it taxed the capacity of the accommodations to properly display the consignment.

When Miss Anne McGregor Payne arrives on the Wednesday morning train to judge the exhibits, she will find her hands full, for the leading artists in the various lines included have been busy and the greatest domestic science and domestic arts exhibits ever seen in the city are to be found there.

The auto show and the big show generally is formally opened to the public Wednesday morning, and the admission is 10 cents. It is a show that will be visited by thousands of persons, not only from this city and

### IN SOCIAL CIRCLES

Society is resuming its activities after a season of unprecedented quietness during the meetings of the past six weeks although Lenten season observed in some of the churches is now on and it is hardly expected that there will be the usual number of affairs until after Easter.

Mrs. C. Howard Griffis filled the role of hostess to the Monday Club charmingly at the Cherry Hotel Monday afternoon.

Mr. and Mrs. Frank S. Jackson entertained at a delightful dinner of handsome appointment Monday night Mr. and Mrs. George Jackson, daughter, Miss Emma, Mr. and Mrs. Frank M. Fullerton, Mrs. Bella Ustick and daughter, Miss Florence.

An artistic arrangement of bitter sweet formed the table decoration.

The social event of the week will be the Colonial tea and program to be given by the Daughters of the American Revolution at the Federated club rooms Thursday afternoon, at half past two o'clock, honoring Washington's birthday.

Altho it is not imperative many of the Daughters will wear the Colonial costume.

A clever program is being prepared and the afternoon will offer distinctive attraction.

The women of the town are generally invited and there is little doubt that many will avail themselves of the opportunity to be the Daughters' guests.

A silver offering will be received at the door.

Mrs. Martin Hughey pleasantly entertained her bridge club Monday afternoon.

The Young Matron's Duplicate Bridge club is enjoying the hospitality of Mrs. H. E. Daugherty this afternoon.

"On" the afternoon of Thursday, February twenty-second, Washington's birthday, Mrs. Taylor Sturgeon and her daughter, Mrs. Dr. DePue, of Parkersburg, W. Va., will preside as hostesses at a card party at the Sturgeon home on North Columbus street.

The delightful event will compliment Mrs. E. E. Winship of Hart, Mich., another daughter of Mrs. Sturgeon, who has been enjoying a pleasant visit in Lancaster.—Lancaster Eagle.

The Westminster Guild met with Mrs. Austin F. Hopkins Monday night for the last session of the year.

After some business and the hour's study of "Old Spain and New America," there was a much enjoyed social period.

The hostess served a dainty refec-

tion.

## FUNSTON ANSWERS COMMAND

Major General Frederick Funston Dies Suddenly at San Antonio Last Night—Performed Many Daring Deeds.

San Antonio, Texas, February 20.—Major General Frederick Funston, commanding the Southern Department of the United States army, and one of the leading figures in the country's military history since his capture of Aguinaldo, while commanding a Kansas volunteer regiment in the Philippines, died of acute indigestion last night.

He collapsed in a hotel soon after dining with friends and did not regain consciousness before his death a short time afterward.

General Funston was at his office yesterday, with no sign of ill health.

During dinner he seemed in his usual good spirits, and after the meal began to play with a child of one of the guests. He fell over unconscious before anyone could reach him.

General Funston's last words were: "How beautiful it is!" He referred to the "Beautiful Blue Danube" waltz which the hotel orchestra was playing.

Lieutenant Colonel M. W. Ireland, Medical Corps, U. S. A., General Funston's physician, said last night:

"General Funston's death was caused by angina sclerosis of the arteries of the heart. Death was almost immediate and without pain."

By Associated Press Dispatch.

Not until 1896, when the Cuban Insurrection was at its height did Frederick Funston become known throughout the United States as a first-class fighting man, but his friends in Kansas—where he spent his early manhood—long had so classified him.

As a student at the University of Kansas, when he weighed less than 100 pounds, he conquered a 200-pound "bad man" who threatened him with a razor. To add to the giant's humiliation, Funston marched him through the streets of Lawrence, Kansas, at the point of a revolver, to a police station.

A few years later, while city editor of a paper in Fort Smith, Arkansas, young Funston stirred up intense feeling by attacking editorially the publication's own political party leaders during the absence of his editor-in-chief. Many threats are said to have been made against Funston and the newspaper property, but he remained on guard until his superior returned and then turned over the plant unharmed. Incidentally, Funston also resigned.

Along the Santa Fe railroad they still recall how Funston as a passenger train conductor, threw a drunken cowboy off a train and later, when he hurled a rock through a coach window, pursued him several miles on foot while the train waited.

Funston's first experience on the firing line came in Cuba, where he commanded General Gomez's artillery.

General Harrison Gray Otis, inquired

THE LATE GENERAL FUNSTON.

with remarkable results. After engaging in twenty-two battles and being wounded three times, he resigned his command because fifty guerrillas who had aided the Spaniards were executed against his wishes. Captured by Spaniards on his way to Havana, he escaped death by swallowing a letter to the President of Cuba, which would have proved his identity.

While a colonel of the famous twentieth Kansas Volunteer Infantry in the Philippine War, Funston performed feats of bravery that brought him the title of brigadier general. His capture of Aguinaldo and his fording the Rio Grande at Culapit under fire featured his work.

Funston has been described by his superiors as absolutely fearless. Ever ready to plunge into danger, he cared little whether his force equalled that of his opponent. One day, the story goes, when it appeared certain the Filipinos would destroy three companies under Funston's command, General Harrison Gray Otis, inquired

of the Colonel how long he could hold his position.

"Until I am mustered out," Funston replied; and he made good by resigning the Philippines.

When the volunteers were discharged, Funston retained his rank as a member of the regular army. As a regular he made a mark by maintaining order in San Francisco during the disaster of 1906. Temporarily in charge of the troops at the Presidio, when the disturbance came, he quickly declared martial law and set about obtaining accommodations for the homeless, keeping down the cost of food and arresting trouble-makers. It was while he was in command of the troops at Vera Cruz in 1914 that he was raised to the rank of major-general. He then was 49 years old.

The ambition of Funston's youth was to go to West Point, but he failed in an entrance examination. In later years he repeatedly outranked West Pointers who were in school when he failed of admission.

Physically, Funston was one of the smallest men in the United States Army. He was barely five feet and five inches tall and usually weighed less than 120 pounds. In civil life he was modest and retiring.

His achievements in the Mexican trouble were marked by their splendid strategy.

## THE CHATHAM CONCERT COMPANY

Personnel: — Myretta Chatham, Reader; Adelaide Rynders, Violinist; E. Rosina Aussiker, Soprano; Anthony Metzger, Pianist.

The success of this company since its organization has been most phenomenal. Space will not permit publication of the many glowing tributes attesting the universal satisfaction which this company of artists has given our many patrons throughout the East. Each artist is endowed with a pleasing personality and true artist's temperament. Their program is modern and effective, selected with a view to educate and please the public. The "Perfect Song," an original operetta, written by Miss Chatham especially for this company, is a most novel costume feature and closes an

exceptional program that will not fail to attract and hold large audiences.

High School Auditorium, March 5th, admission 25¢.

## Editor Tells How D. D. Cured His Eczema

Clergyman and Banker Also Write

H. H. Gottschall, Editor Ohio Preaching, Mt. Pleasant, Ohio, writes me eczema of skin was troubling him. Now I am completely healed, after 4 bottles of D. D. D. I have seen a case of 25 years' standing cured. I have seen my own doctor and mother die, which he could not cure him.

H. Spear, Banker, Hopkinton, Ia., treated with three bottles for six months. They did me no good; but then after 4 bottles of D. D. D. were full of the disease again. I applied D. D. D. twice daily and it smoothed as a baby's.

Rev. L. Downing, Pastor 5th Av. Presbyterian Church, Roanoke, Va.: For three years I suffered intensely. I have at last found relief in D. D. D. I have not had a recurrence since applying it. I am now completely cured. I have at least forty cases of this disease.

Trimmers are glad to recommend this, nothing costing liquid, oil, cream and \$1.00 cents to a case of eczema. Tell your doctor about it, especially if you have the first bottle reflexes you. D. D. D. is the best thing for it. Ask about it. Blackmer & Tanquary.

THE AUTOPLANE, WITH REAR ADMIRAL BRADLEY A. FISKE, RETIRED

One of the most interesting exhibits seen at the aeronautical show in New York city is the autoplane, a unique combination of an automobile and an aeroplane—a veritable "aerial limousine," which will not only run over the ground at approximately forty-five miles per hour, but will leave the surface of the earth and fly away like the magic chariots of old. Entirely different in its construction from any aeroplane heretofore produced, this latest creation of Glenn H. Curtiss' brain is decidedly a step in advance.

The machine powered with an eight cylinder 190 horsepower motor which will drive the autoplane at a maximum speed of sixty-five miles per hour through the air.

The wing spread is forty feet. The length over all is twenty-seven feet and its vertical height is slightly over ten feet. Picture shows Rear Admiral Bradley A. Fiske, retired, and auto-
